fpu_round
Input
sign, exponent (unbiased),
26-bit mantissa, sticky
Subnormal shift
exponent below -126:
shift right, collect
shifted-out bits in sticky
Round increment
RNE, RTZ, RDN, RUP, RMM
from LSB, round bit,
sticky bit, sign
Flags
NX: round or sticky
UF: tiny after rounding and NX
OF: exponent >= 255
Overflow result
infinity or largest finite
number, by rounding mode
